Spring 2022

Dear Portfolio Show Visitor:

Hello, and thank you for visiting the PSU Film portfolio show. My name is Jordan Meuser and I am graduating from PSU with a Bachelors degree in Film in spring of 2022.

My whole life I have been drawn to film and the creative process. From making stop motion videos with plastic army men and Legos, to joining my high schools broadcasting club and coming in second place in a state-wide competition. Video production has always been a part of my life. I have been able to work with professional athletes like Enes Freedom, and Max Holloway. Due to these great opportunities I have grown as a filmmaker and a collaborator.

My biggest strengths are that I have grown up in a team-based environment and have learned to work well with others due to my involvement in sports, clubs, and volunteer work. I am always willing to learn, communicate, and adapt to any situation. I have worked as a director of photography on several short films and music videos including a nominated film in the 48-hour Portland film competition. I have been hired to be a camera operator of several live streamed events, such as graduations, sporting events, and town hall meetings,

I appreciate you taking your time to come out to the show to view my portfolio. Feel free to contact me and I hope to be working with you as we create something new and exciting together.

Sincerely,

Jordan Meuser
