Dear Portfolio Show viewer,

My name is Natalie Eng and this spring I will be graduating from Portland State University (PSU) with a Bachelor of Arts in Film. I am excited to help your vision come to life!

From a young age I've gravitated towards creative hobbies and endeavors. I love playing music, drawing, photography, and of course, film making. I am my happiest when creating and have found that film making brings together my love of storytelling along with visual, performative, and auditory arts. I love working in film and find fulfillment and joy in the process. This past Fall I began working as an Assistant Editor on PSU.tv's feature film, *Fencesitters*.

I specialize in picture editing, color correction, and motion graphics/animation. I took my first animation course as part of a summer program leading into high school and began teaching myself the inner workings of Adobe Premiere, After Effects, and Animate. I have developed and honed these skills through various production and animation courses at PSU. Following my freshman year in college I was fortunate to receive a NW Emmy Award as part of the editing team for the Seattle Channel's *An American Hero: Frank Nishimura*.

When working in Film, every production brings with it an opportunity to learn and grow. No project is exactly the same and I am proud of my ability to adapt and learn quickly no matter what challenges arise. Although my focus is in post-production, over the years I have developed skills in almost every stage of production. I have experience in producing, production sound, camera operation, and set-decoration to name a few. I am always willing and ready to provide assistance wherever it is needed. I am proud of my positivity, active listening and effective, patient communication. When working on any project, I have found that these skills can drastically improve a stressful work environment.

Outside of film, I have experience working in customer service. I have worked as Department Support for Nordstrom during their Anniversary and Half Yearly sales. Nordstrom's fast paced environment and ever evolving circumstances require high levels of self-motivation, adaptability, productivity, organization, communication, and customer service skills. I started working in my department prior to the current manager's arrival. So, in the beginning, she relied on me to help her learn our department's inner workings and train new support employees.

Please let me know if you have any questions/concerns! I am most easily reached through my email (engnataliecreative@gmail.com) or by phone (206-841-0982). Thank you so much for taking the time to consider me for your project. I look forward to hearing back soon!

Best,
Natalie Eng
