Dear Portfolio Showcase Viewer,

Thank you for taking the time to look at my portfolio! I am a recent graduate of Portland State University (PSU) with a Bachelor of Arts in Film, Liberal Studies and Arts and Letters. Since high school I have naturally found myself taking initiative in any position I am in, anticipating and solving problems before they happen. Throughout my years at PSU I have discovered a passion for collaborating with my peers to produce the highest quality content possible and filling out the role of 1st Assistant Director.

Closely working with others to bring our vision forward and implementing an effective schedule and routine is my passion. I love establishing organized, practical systems to help ensure ease of collaboration and communication between my team members. I bring 100% of my energy into every project I work on and love being able to see all the hard work pay off.

I am constantly looking for new challenges to improve my personal and professional skills and welcome any opportunity to work in media production. I look forward to hearing from you!

Sincerely,

Jessie Quandt
