

Dear Portfolio Show Visitor,

Thank you for visiting!

My name is Rosemary Gostovich I'm a graduating Film major at Portland State University working in a variety of mediums including live action film, stop motion animation; digital painting and illustration; and 3D printed sculpture.

Over the course of my film education, I've enjoyed hands- on experience in storyboarding, editing, motion graphics, and in production support roles. I am proficient with toolsets across the Adobe Creative Suite, Canon camera systems, and Sound Devices recorders. I enjoy working in collaborative environments.

My portfolio is a representation of my development as a multi- media artist while at Portland State. Feel free to take a look and stay a while!

Thank you again for visiting.

Sincerely,
Rosemary
