Dear Portfolio Show Visitor,

I've been making films since I was ten years old, shooting films with friends. I've always loved the art of cinema, and one day dreamed of being a director and creating my own box office hit. As the years have passed I've continued to hone my craft. After graduating highschool, I knew that I wanted to continue my education at Portland State University's film program.

Over the course of these four years, I've gained knowledge of how the film industry operates and learned a lot about myself within it. I discovered how much I enjoy editing and working behind the scenes, and now I'm ready to pursue that future. Now that my studies at PSU are drawing to a close, I can't help but be excited for the journey that's ahead of me.

After graduating, I hope to work as a freelance videographer/editor, specializing in creating ads, commercials, media content for local businesses and events in my hometown. I would love an opportunity to sit down with you and discuss how my skills and experience could help your company

Thank you for visiting!

Sincerely,

Jake Thorsen
