Portland State University Portfolio Showcase

Dear Portfolio Showcase Visitor,

I am a senior studying film at Portland State University with a goal of pursuing a career in sports broadcasting and filmmaking. I have already developed a strong foundation in both the technical and creative aspects of broadcast media and narrative film production, positioning me well to succeed in a professional environment.

During my time at school, I have worked closely with Portland State's sports broadcasts in the roles of director, camera operator, graphics operator, and replay operator for soccer, volleyball, football, basketball, softball, and track & field. Through this work, I have gained connections that led to opportunities at the WIAA state basketball tournament, COGA MMA, and D-League basketball. Sports are a big aspect of my life, and I have loved learning how to put together a clean and compelling production for fans to enjoy.

Through my coursework in film, I have collaborated with peers on a multitude of short films and documentaries, where I contributed as a screenwriter, 1st AD, director, grip/gaffer, editor, and director of photography. I am a motivated and hardworking individual, finding creative solutions to solving problems and working well with others to reach our desired goal.

I welcome the chance to work with high-level media professionals and eager, motivated peers like myself to partner and learn together in the pursuit of our passions. Thank you for attending this showcase and listening to my story. Please feel free to reach out at any time.

Sincerely,

*Micah Beach*
