

June 7, 2024

Dear Portfolio Show Visitor,

Thank you for visiting our portfolio show.

My name is Lijah Elton and I am interested in working on sets and live production sets as a camera operator and first assistant camera.

During my short but exciting time in the Portland State University School of Film I have had the opportunity to intern as a production assistant on small sets and music videos. With these 50 hours of experience, I have been able to learn new skills and focus on my areas of interest. This past winter term I worked on the student film Tea Leaves which helped me realize my love for focus pulling and how the camera can be utilized to capture beautiful moments.

Of the projects I have worked on in the last two years I have acquired skills that I plan on continuing to adapt and perfect. I am eager to keep learning and enjoy working with other like-minded creatives.

If you are looking for someone adaptable and excited and eager to learn, please reach out.

Thank you for your time,

Lijah Elton
