Dear Portfolio Show Visitor,

I have been pursuing a Film degree at Portland State University for the last two years and am now looking for work that will help me gain more experience in the film industry. As someone who is committed to their roles and responsibilities, I am writing to express interest in potentially working together on future projects. I believe that I would make an excellent employee for your community.

While my experience on professional sets is limited, I have no doubt I will be able to easily pick up the skills needed to adapt to the job. For many years, I've had several customer service jobs and I am well equipped to work in a team, manage multiple tasks at once, and handle a fast-paced and stressful environment. I also have quite a bit of writing experience, including scriptwriting for the Short film *Partners In Crust*, and a creative writing piece that was published by Catawba Valley Community College. Moreover, I am confident that I will have no problem adjusting to any role thrown my way, as many share qualities of work that I excel at such as; being open minded and communicative with peers and coworkers, working with heavy pieces of film equipment, modeling "Team First" behavior with a strong work ethic, and adaptability.

In addition to my work experience, I have a strong educational foundation studying at Portland State University, which has helped me build solid skills like time management and organization. All these are qualities I hope to bring to your community and further the company's growth.

I hope you will read over my application and consider me for the position. Please do not hesitate to contact me for further information or clarification. I would love to meet and discuss the job in full. Thank you for your time.

Sincerely,

Sal Petruzelli-Sample
