---

Dear Portfolio Show Visitor,

My name is Nova Rowan. I'm a student at Portland State University pursuing a Bachelor of Science degree in Film. I've been a cinephile my whole life and I'm incredibly enthusiastic about the creative process of making movies. My goal is to tell stories that leverage my unique perspective to emotionally resonate with audiences. I am ready to put my artistic voice to good use in future projects and I hope you will review my portfolio materials and reach out if you need a hand.

During my time in school, I have had hands-on experience in most areas of film production. My main areas of interest are in cinematography, directing, editing, and screenwriting. Between my time as a crew member on various film sets and my job at the Portland State Film Equipment Room, I have a deep knowledge of camera, sound, and lighting systems and technology and how to properly utilize each piece of equipment to achieve a storytelling goal.

I'm proficient in the Adobe Creative Suite, particularly Premiere and Photoshop, as well as DaVinci Resolve for color grading and Final Draft for scriptwriting. As someone who loves working on films and connecting with people over our shared passion for the medium, I'm a strong team player who's more than willing to listen to what other people have to say while offering my own perspective. I also pride myself on my flexibility. On top of having confidence in my areas of expertise, I am willing to step outside my comfort zone and take the time to learn new skills as necessary. Most of the creative process involves finding creative solutions to unanticipated problems, so I view any obstacle as a learning opportunity.

Thank you for taking the time to stop by! I look forward to working with you in the future.

Sincerely,

Nova
