Dear Portfolio Show Visitor,

Thank you for coming to the Portland State University School of Film portfolio show. I am very excited to share my body of creative work and hope that it communicates my skills, imagination, and passion for visual storytelling.

What I love most about the film medium is it's ability to connect people. Growing up in rural Ohio, I was personally supported and validated by the expanded world view that films offered me. Now as a media professional, I enjoy helping people tell their stories to connect with their audiences. My skills in storytelling, digital media, graphic design and branding have provided my clients with fresh, creative visual solutions.

I am a dedicated, highly-focused worker who strives for perfection and enjoys new opportunities to learn. My eye for design and vibrant imagination make me a valuable addition to any creative team. I am skilled in industry standard video editing software, can handle basic camera, sound, and lighting equipment, and am open to supporting your company or project's needs in whatever ways I am best suited, though I am especially interested in cinematography roles.

Please see my attached resume for more details about my experience and accomplishments, and view my reel for a sense of my artistic skill. I would welcome the opportunity to meet in person to learn more about you, your vision and goals, and see how we might work together to tell stories that create connection.

Warmly,

Garrett Recker
