Dedicated and versatile filmmaker with a determination to solve problems. Strong collaboration skills that facilitate team communication and creativity. Skilled in camera, art, and editing department roles with an ability to collaborate and troubleshoot effectively.

HELLO THERE

Dear Portfolio Show Visitor,

Throughout my college career at Portland State University, the film program has helped an aspiring cinematographer and editor like myself to gain the quality skills necessary to succeed in media production. While working on student-led film productions, I developed excellent skills in collaboration, cultivating clear and concise communication about the job at hand, managing crew members, and demonstrating leadership.

My coursework at PSU has offered me a broad-base understanding of film production processes across multiple departments and crew positions. My area of particular skill is in cinematography and I am an avid learner about anything related to the camera. I have hands-on experience with professional cinema cameras, accessories, set etiquette, and the roles of those in the Camera department. I am also drawn to the role of Editor, where I can leverage and manipulate the footage taken in production for maximum impact. I have also worked as a Costume Constructionist for PSU's Theater Arts department where I have developed skills in hand stitching and sewing garments for actors.

I have great passion for the profession and am ready to get started on a career in film, music video, and TV production. I am excited for the opportunity to apply my energy and knowledge on professional projects. I look forward to discussing my portfolio with you in more detail and am available for an interview at your leisure. Thank you for your time and consideration.

Sincerely,

Katriona Pratt
