Dear Portfolio Show Viewer,

Thank you for looking at my portfolio. I hope you can see that I am passionate about the art of filmmaking. Film is powerful and inspires many to dream of the impossible. So no matter the challenge, I am always ready to give the project my all!

When I was young, I was surrounded by storytelling. Whether it was my mom reading me Lord of The Rings or me making up scenarios for my LEGO figures, I always had a story in my head. Initially, I didn't want to go into filmmaking, I wanted to become a YouTuber like my biggest inspiration, Markiplier. That dream failed in one way and succeeded in another. I learned I didn't want to be a YouTuber but I wanted to know more about editing. This eventually led to me learning sound mixing and sound design, allowing me to work as the mixer and designer for Breaking Brent (2022) and Nightmares: A Short Horror Series (2022).

Beyond being able to work on amazing projects, my favorite part has been collaborating with the amazing people who made these projects become reality. I often stress that while doing the project is important, so is getting to know the people around you for better teamwork and synergy. Because of this, I have looked for many opportunities and projects to meet people around Portland and in the PSU Community. This has led to me adapting to new environments and being comfortable with being uncomfortable. Film cannot be great if those who make it do not take great leaps of faith.

Thank you again for looking at my portfolio. Please consider me for any project you have and I hope to hear from you soon!

REGARDS,

Alexander Sales
