

Dear Portfolio Show Visitor,

I'm a soon-to-be graduate of the School of Film at Portland State University, with skills across the film production process including editing, camera work, directing, and screenwriting. Throughout my time in the program, I've developed software proficiencies in Adobe Premiere, Final Cut and Dragon Frame, interpersonal abilities critical to collaborative work environments, and advanced coordination and communication.

With a minor in Art Practice, I approach each project with a keen eye for detail and an emphasis on visual storytelling, whether it's through set design, cinematography, lighting, or even wardrobe. This approach is also evident in my instinctual editing style that focuses on finding a rhythm in cuts that best serves the story's natural narrative arc.

Music and film are so intertwined for me that I find my best work to date always comes from projects where those two arts meet. Whether it's shooting a music video or a live show, or editing an experimental film with an evocative soundtrack, I am constantly thinking about the exchange between these two mediums.

I'm a natural storyteller and leader and have been all my life, but what I hope for most is the opportunity to collaborate with likeminded creators who are just as passionate about this craft as I am.

Thank you very much for taking the time to look over my portfolio, and I look forward to hearing from you soon!

Warm regards,

Irina Klippert
