Dear Portfolio Show Visitor,

Graduating with a Bachelor of Science degree in Film Production at Portland State University, I am currently seeking employment in the film industry. For as long as I can remember, I've always been fascinated by the art of filmmaking. I am a valuable asset to any film set due to my diverse range of skills. I have experience in photography, lighting, editing, directing, color grading, cinematography, and sound design.

After starting my media arts journey in high school, I developed my passion for editing through various courses where I've gained beneficial skills that evolved into habits which have built my strong work ethic and paved the way for the accomplishments I have made. It is through my time at Portland State, where I advanced these skills, and found my passion for post-production work and music video production. Additionally, I often took on leadership roles in directing and editing, managing shoots, and communicating with talent to ensure a timely post-production delivery. In conjunction with my academic achievements, I have cultivated proficiency in industry-standard software, including Adobe Premiere Pro, After Effects, and Photoshop. Whether it's working on sound editing, color correction, or script-to-screen planning, I thrive in both fast-paced and creative environments.

Now that my time in college is coming to an end, I am confident in my ability to bring film productions to success by carrying these projects through from pre-production to post-production using dedication, communication, and creative problem solving, along with my ability to collaborate with others with a reputation for calm and pleasant demeanor to arrive at a high-quality end project. These traits have proven to be valuable in every aspect of my career and in bringing these productions to life.

Thank you for taking the time to preview my work. Please don't hesitate to contact me if I can be of service to you in the future, and don't hesitate to contact me if you have any questions. I am always available at your convenience if you'd like to chat about any upcoming projects!

Sincerely,

Kristen Chunn
