31st May 2022

Dear Portfolio Showcase Viewer,

Thank you so much for taking time out of your day to read about me; I am truly grateful. I am graduating from Portland State University with a Bachelor's Degree in Film and a Minor in Business Administration. I am hoping to take what I have learned from these past 4 years of college, and apply it to a job in the film industry.

During my senior year of high school, I went on a trip to Southern California. While I was there, my mom and I went on the Warner Brothers Studio Tour. On that tour, I began to realize how much I loved movies and T.V. shows. I loved the escapism, inspiration, and wonder that it brought to the audience, and I wanted to be a part of the process.

In my time at PSU, I have developed skills in production and working as a team, as well as learning about the history and theory of film itself. I've learned that I love to be a part of a group of people who are dedicated to the craft; and bringing our skills together to create something wonderful. Outside of school, I have had the pleasure of being able to gain real-world experience from working with the livestreaming company Tracklandia.

In school, I worked with a group of talented individuals to create a short film called *Harper's World* (2022). On this film I worked as an editor and sound recordist. I was able to work solely on the jobs I needed to do and execute them well because of the group of people I collaborated with.

Please don't hesitate to reach out with your contact information on any job. I am willing to learn from the ground up! Thank you again for taking the time out of your day to view my portfolio. I can't wait to hear from you!

Sincerely,

Kendyl Huston
