Dear Portfolio Show Visitor,

Thank you for coming to our annual portfolio showcase. I am a freelance director and assistant director with a Bachelor of Science in Film at Portland State University. My aim is to deliver quality material with an emphasis on communication and performance. With multiple short films under my belt, each involving me in diverse roles, I have been guided into finding specificity in my filmmaking techniques. While working on a project with the crew at PDX Framework, I learned the importance of a well-guided crew, and how to organize them to utilize each of their individual strengths.

One of my proudest achievements was when I worked as an Assistant Director on the short film Tea Leaves, in which I worked closely with every cast member, organized all key paperwork, created a heavily successful social media marketing campaign, which was bookended by a fundraising campaign which made over twice our estimated budget. The film went on to be accepted at the Viking Film Festival and premiered here in Portland at Cinema 21.

Thank you for reading my cover letter. I look forward to the opportunity to discuss how my experience and vision can contribute to the success of your company/business/studio. Please feel free to contact me anytime at (925) 876-1177 or contact@nolstark.com if you want to learn more or schedule an interview.

Sincerely,

Nolan Stark
