Dear Portfolio Show Visitor,

While on the lookout for propositions within the digital media world, I was glad to be able to hear about the opportunity that you currently have available. My excitement comes from the confidence in my skills and experience that I have up to this point.

I have experience in digital media productions that ranges back to nearly a decade. From a young age, I have been fortunate to get the opportunity to direct and edit videos and get a head start, which has allowed me to learn from my mistakes and grow leaps and bounds as a filmmaker. It's helped make me realize just how important and precious each and every facet of film is.

Being a student-athlete has given me the discipline to be able to multi-task and learn what it's like to be a team player. The film industry is no different in that regard. Every person matters, and if everyone does their job, we can run a well-oiled machine. Considering the team situations that I have dealt with in the past, where I had to play both sides of the ball in football, that period in time helped me aspire to be a swiss army knife and have a wide variety in my skill set. I have experience producing, writing, directing, camera operating, and editing for various types of productions that include short films, multi-cam live productions, newscasts, sports events, interviews, and marketing for social media.

I relish at the opportunity to be a problem solver and be a breath of fresh air to a program.

Thank you for your consideration and I hope to hear from you soon.

Sincerely,

Dominic Wilson-Carr
